

ABSTRACT

Smart contract platforms and cryptocurrencies have captured mass attention but still have not been able to achieve mass adoption due to scalability and user experience issues.

Our network aims to solve the problems faced by investors which are still in process of providing themselves a skillful way of profiting while hedging the financial markets. We are redefining how money is being moved, spent and invested. We are powering the Future of Money. Today BoldFxtrade is a private limited investment company founded and registered in UK. Incorporated on the 1st January, 2016, evolving the way digital asset investments are made in the industry. Management in our team ranges from various skilled analysts in value investments of the stock market to partnered companies and private clients.

WHAT YOU GET?

BoldFxtrade Limited is a crypto hedge fund with these:

Security: The security of users' data and funds is paramount to any business we know that and so we put up a safe & secure architecture to prevent scam or fraud. Investors must contact support after depositing to give an option for a security question and answer which is useful for instantly verifying your account information, thereby protecting you against data theft or scam. Along with that is our feature of protection against DDoS attacks causing full data encryption.

Fast Payment Processing: We are a smart contract that ensures speedy payment processing for users after investment maturity. Payment system is based on blockchain, which is optimized for high performance, fair ecosystem for every crypto related project.

Dedicated Customer Support Service: Investors have access to a 24/7 dedicated customer support service, available to attend to any issue you may encounter while trying to execute a deposit/withdrawal transaction.

ARCHITECTURE

Since the BoldFxtrade Network's core focus is on mass user adoption, it is ideal to make a deep dive into the technical architecture from where the user should start a journey. Our investment packages range from basic to compound investment packages to suit your income. We automate arbitrage as well as other services.

Investments can also be made in cryptocurrencies, which include: Bitcoin, Stable coins and all other altcoins. Immediately you execute account funding we immediately hedge your position opening a bear and bull position with our swift graphed strategy to enable you earn in the market in every cycle without losing the value of your asset. With a team of experts and professionals in Risk Management and Liquidity, Business Management, Hedging, and others, we bring an alternative investment vehicle that employs a variety of strategies to generate alpha strategies for their accredited investor clients.

BoldFxtrade Limited puts your cryptocurrency assets to work and earning. It was founded by aboard which drafted out a strategy of helping you grow their individual assets providing a negotiable contract in a period of asset holding ranging from liquidity mining, market making, staking and business funding. We have the management services for investors, businesses, and private clients, with a proven track record that always ensures that every investment was worth it.

Licenses and approvals are assured in all jurisdictions, the Company and its subsidiaries intend to operate in full compliance with applicable laws and regulations and obtain the necessary licenses and approvals. This means that the development and roll-out of all the initiatives described in this whitepaper are guaranteed. Regulatory licenses and/or approvals are likely to be required in a number of relevant jurisdictions in which relevant activities may take place.
